Special Campaign Verse

3. Canadians are now engaged in every line of trade,
So let us help to sell the goods that really are home made.
To keep our industries alive, there must be work to do,
So good people who are shopping, it is simply up to you
To start right in this minute, and let everyone demand
That every article they buy is "Made in Canada" brand.
If you are offered something else just think of this campaign,
And help to make your country great by singing this refrain.

Refrain:-

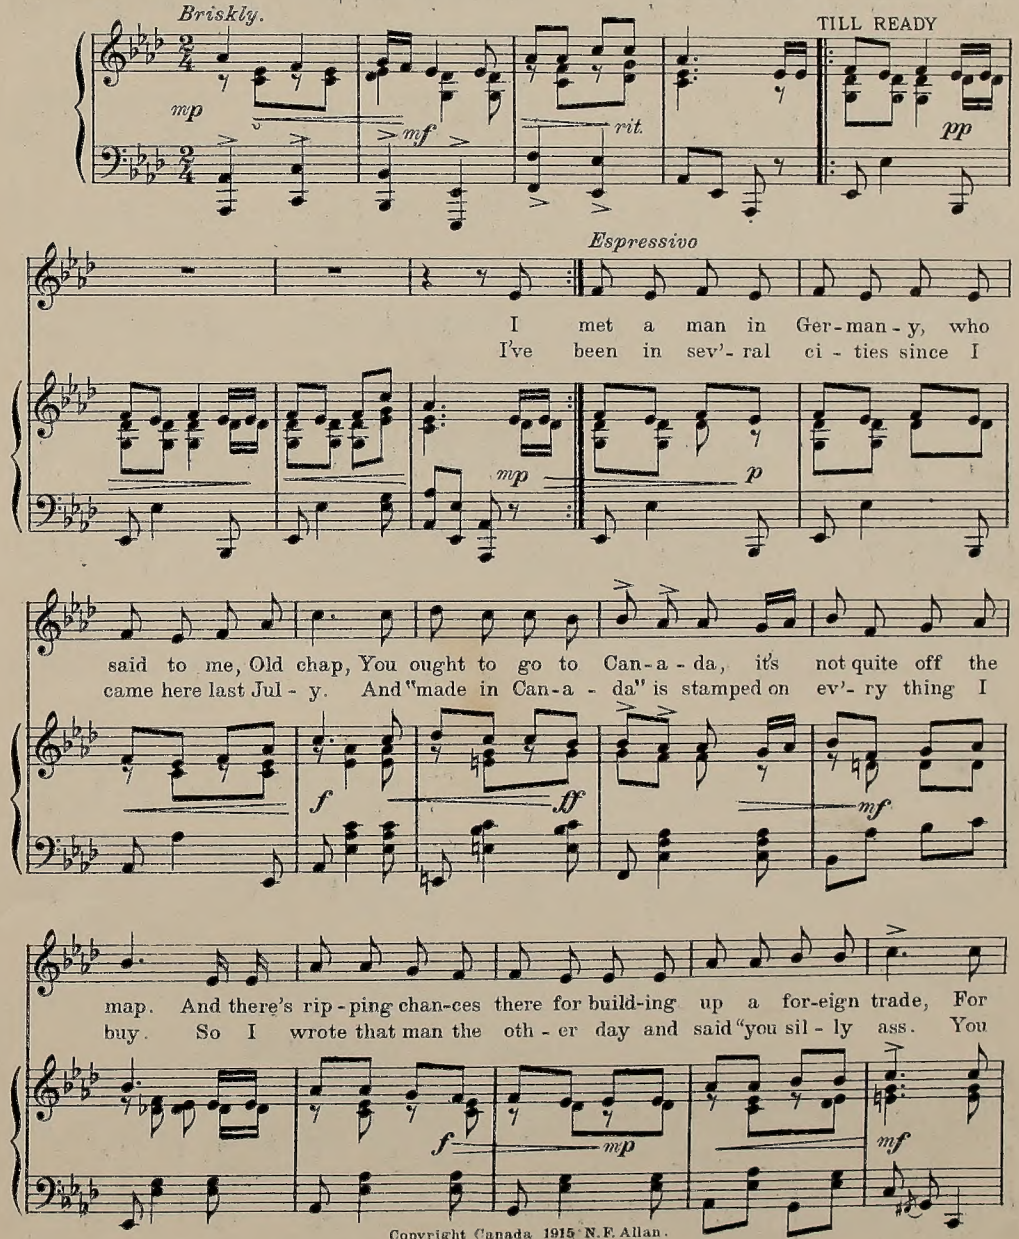

"Made in Canada" is good enough for me,
And any other kind of goods I do not care to see,
We may import a few things now, but in a year or two
By boosting this campaign they will be "Made in Canada" too.
